HOW TO USE THIS CATALOG TO LOCATE PARTS

This catalog is divided into Item Class Groups in which illustrations for parts of a similar function and/or location are published.

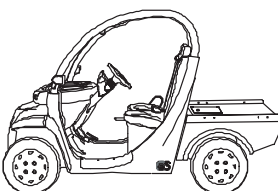

- Option 1: From the contents page of the parts catalog, select the section which would most logically contain the part to be found. When the part is found, then determine if the part is for your model of vehicle by located the correct icon at the top of the page. (See illustration below “Determining if the part is for your model of vehicle”)
- Option 2: If the part number is known but the applications and/or locations need to be determined, refer to the numerical index. This index shows the part number, description page numbers that the item is listed.
